

Episode 23

Farmer Seth Watkins

Seth Watkins told Charlie about different conservation practices he uses on his farm. *Unscramble the words below to name these practices.*

1. Seth built one of these with plants around it to filter water and reduce soil erosion.
NODP _ _ _ _
2. This crop farming practice can reduce pests and weeds and helps to keep the soil healthy. TONATOIR _ _ _ _ _ _ _ _
3. Seth manages this to provide a healthier place for livestock to live and eat.
TREPUS _ _ _ _ _ _
4. Seth uses these to keep the soil covered all year and reduce soil erosion.
ROVEC PROCS _ _ _ _ _ _ _ _ _ _
5. Seth does this to find out soil quality and what nutrients are in the soil.
LOIS SETTS _ _ _ _ _ _ _ _ _ _
6. This can be used as a natural fertilizer on the soil.
NARMUE _ _ _ _ _ _

Describe why Seth built a pond and how the pond helps water quality as well as the plants and animals that live there.
